Cool cool cool cool cool cool runnings  
You get the cue and we hit the ground running  
Cool cool cool cool cool cool runnings  
Don't gotta crash we can make it to the finish  
You got the heat, don't put me on ice  
Just get the link, it could be so enticing

Cool cool cool cool cool cool runnings  
We're on the way and we're going 100  
Cool cool cool cool cool cool runnings  
Didn't I warn that I get what I wanted  
You got the heat, don't put me on ice  
Just get with me, it could be so icon

Meet me in the back  
Full force front  
Here for the thrills cause he knows I wanna  
Meet me in the back  
Full force front  
Here for the thrills so when you wanna (go)

All my life I wanted you x4

Cool cool cool cool cool cool runnings  
You get the cue and we hit the ground running  
Cool cool cool cool cool cool runnings  
Don't gotta crash we can make it to the finish  
You got the heat, don't put me on ice  
Just get the link, it could be so enticing

Cool cool cool cool cool cool runnings  
We're on the way and we're going 100  
Cool cool cool cool cool cool runnings  
Didn't I warn that I get what I wanted  
You got the heat, don't put me on ice  
Just get with me, it could be so icon

Meet me in the back  
Full force front  
Here for the thrills cause he knows I wanna  
Meet me in the back  
Full force front  
Here for the thrills so when you wanna  
(All my life I wanted you)  
Meet me in the back  
Full force front  
Here for the thrills cause he knows I wanna  
Meet me in the back  
Full force front  
Here for the thrills so when you wanna
